PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and experience in frameworks like React and Angular. Skilled at creating responsive, user-friendly interfaces and collaborating with designers to transform wireframes into high-quality web applications. Passionate about learning, committed to delivering high-quality code, and eager to contribute to innovative projects in agile, fast-paced environments.

TECHNICAL SKILLS

- Languages & Technologies:** HTML, CSS, JavaScript, TypeScript
- Frameworks & Libraries:** React, Angular, Vue, Node.js
- Version Control & Collaboration:** Git, GitHub, Agile Methodologies (Scrum)
- Testing & Automation:** Basic knowledge of automation testing frameworks
- Development Practices:** Responsive Design, UI/UX Design, Debugging
- Soft Skills:** Problem-Solving, Communication, Collaboration, Adaptability

EXPERIENCE

Software Development Intern | Tech Octanet

07/2024 – 08/2024

- Built responsive, dynamic web interfaces using HTML, CSS, and JavaScript, collaborating with designers to ensure alignment with visual and functional requirements.
- Worked on multiple UI frameworks including React and Angular, transforming wireframes into fully functional user interfaces that optimized user engagement and experience.
- Gained exposure to automation testing frameworks, contributing to high-quality, reliable application releases.

Frontend Developer Intern | Cognifyz Technologies

06/ 2024 – 07/ 2024

- Developed and maintained user interfaces with React, HTML, and CSS, creating dynamic and responsive experiences for web applications.
- Collaborated closely with product managers and UX designers to refine design concepts, translating them into user-friendly, functional interfaces.
- Assisted with implementing best practices for responsive design, debugging, and cross-browser compatibility to improve application accessibility.

Software Development Intern | Web Stack Academy

02/ 2024 – 04/ 2024

- Developed full-stack web applications, working with Node.js for backend logic and React on the frontend to deliver cohesive user experiences.
- Implemented RESTful APIs and contributed to agile development processes, improving understanding of both frontend and backend integration.
- Participated in code reviews and iterative improvements, gaining skills in collaborative development and troubleshooting.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science

CGPA: 7.14/10

Takshshila Institute of Engineering & Technology, Amravati

08/2020 – 04/2024

ACADEMIC PROJECTS

1. Full-Stack E-Commerce Application (Node.js & React)

- Developed a full-stack e-commerce application using Node.js for backend services and ReactJS for the frontend interface.
- Built and integrated RESTful APIs to handle product management, user authentication, and order processing.
- Designed a dynamic and responsive user interface to enhance the shopping experience for users.

2. Task Management System (Node.js, React.js, MongoDB)

- Created a task management system using Node.js for the backend and Vue.js for the frontend.
- Implemented a RESTful API for managing tasks, integrating it with MongoDB for data storage.
- Focused on improving user interaction and system responsiveness by developing a user-friendly frontend interface.

3. Homely Hub – Hotel Booking Platform (MERN Stack)

- Built a responsive full-stack web application using React for the frontend, integrated with Node.js backend services.
- Designed RESTful services to handle data exchange with frontend components, ensuring high performance and seamless
- Leveraged Docker for containerization to streamline the deployment process and improve scalability on cloud environments.

CERTIFICATIONS

Google Cloud Platform (GCP) Fundamentals – Coursera (2024)

Full-Stack Web Development (React & Node.js) – Udemy (2024)

React Developer, JavaScript Basics – Coursera (2024)

Java – Infynas (2024)

Java, HTML/CSS, JavaScript – Great Learning (2024)

JavaScript Algorithm & Data Structure – Free Code Camp (2024)

Git/GitHub, Java, SQL, JavaScript – Geekster (2024)

Java, JavaScript (ES6+) – LetsUpgrade

CSS & JavaScript Crash Course – Udemy (2024)

React, Tailwind – LetsUpgrade (2024)

Appreciation Certificate (JS) – Intern Call (2024)

Introduction to Database and SQL - Great Learning
